

ONE

When we were one
Your hand in mine
We've left the ground
And touch the sky
There were no lies
It was you and I
When we were one

When we were one
Bathing in light
And love around
Spread his sound
We felt so high
No lies, no cry
Like paradise
Yes, we were one

But life is not my friend
It gives yesterday
And steals tomorrow with the other hand
You live a life that's full
Think it will never end, then
You fall down in raging pain
