

WE WERE YOUNG

Smile on your face and truth in your eyes
That's what I wanna keep in my heart
'Cause I'll never forget
Pure was our love, music was so beautiful
And we were young, so young

Please forgive me, it was my secret
When you told me in front of your friends
That you've been in my house
I said... NO! NO!
Sorry to embarrass you

Could you believe that I regret
And I ain't got no tears at all
But I still have a tongue
So I hope you'll hear me and pardon me

What to do to get back into your heart?
Get back to that good feelin' again
Once again in my life
Please forgive me, and remember
How young we were

We were young, so young
We were young, so young
We were young, so young!
