

MEDECINE MAN

Was it the right time?
Was it the right place?
Was it the right someone?
Was it the right man?

Does he really take me to the skies above?
Yes, I remember, together as one

It was short, so short, short
Just like as good jokes you know!
But so good, so good
I need more him he's my medecine man

He's away in Monterey

It surely was the right time
May be the right place
Anyway that's fine, oh what a nice man
I need more him, he's my medecine man

I want that dream to take me by the hand
Oh oh Oh oh
But he's away, in Monterey
Oh oh Oh oh
But I'm alone, all alone
I need more him, he's my medecine man

He's away, in Monterey,
Singing, singing singing
Singing singing
It's all I can do do do do

It surely was the right time
May be the right place
Anyway that's fine, oh what a nice man
I need more him, he's my medecine man
Need more him
